PROFILE SUMMARY

Computer Science Engineering graduate with hands-on experience in digital platform operations, client communication, and workflow coordination through real-world software projects. Skilled in understanding client requirements, communicating professionally through chat and email, managing multiple digital platforms, and delivering solutions in fast-paced environments. Proficient in MS Office, Google Workspace, and modern collaboration tools with strong written and spoken English.

PROJECTS

Hunter – Autonomous AI Browser Copilot | Live | GitHub

2026

- Built an AI-powered browser copilot that automates business workflows from natural language instructions across multiple digital platforms.
- Developed intelligent requirement analysis, document matching, and automated form-filling features to reduce manual operational effort and improve workflow efficiency.
- Coordinated planning, execution, and reporting modules while managing multiple workflows, demonstrating strong problem-solving and operational skills.

Smart Civic Issue Reporting Platform | Live | GitHub

2026

- Developed a complaint management platform that streamlines issue reporting, tracking, and resolution through structured digital workflows.
- Implemented Firebase Authentication and Firestore for secure login and issue resolution workflows.

Tools: React.js, Tailwind CSS, Firebase, JavaScript

Melody – Music Streaming Platform | Live | GitHub

2026

- Developed and deployed a consumer-facing web platform supporting secure authentication, third-party API integration, and seamless user experience.
- Independently managed project planning, feature prioritization, deployment, and user issue resolution while coordinating multiple project tasks.

Tools: React 19, Tailwind CSS, Firebase, Zustand, Vite

EDUCATION

B.E. in Computer Science and Engineering | Chandigarh University

Aug 2022 – Jun 2026

Class 12th | School of Creative Learning

Apr 2020 – Mar 2021

SKILLS

Communication: Professional English (Written & Spoken), Client Communication, Chat Support, Email Support, Requirement Gathering, Active Listening

Operations: MS Office Suite, MS Excel, MS Word, Google Workspace, Digital Platform Operations, Workflow Coordination, Multi-tasking

Technical: React.js, JavaScript, TypeScript, Firebase, REST APIs, HTML5, CSS3, Tailwind CSS

Tools: Git, GitHub, Vercel, VS Code, Figma, Web Portals, Third-party Systems

Soft Skills: Team Collaboration, Problem Solving, Go-getter Attitude, Adaptability, Time Management, Attention to Detail

ACHIEVEMENTS & CERTIFICATIONS

- NPTEL Certified in IoT, Cloud IoT, and Edge Machine Learning, demonstrating structured learning, discipline, and continuous skill development.
- Authored review papers on Blockchain-Based Voting Systems and Zero-Knowledge Proofs, strengthening analytical thinking, research, and professional written communication.
- Completed JSProof and ETHProof certifications by Metacrafters, building strong fundamentals in modern web technologies and decentralized platforms.
- Successfully designed, developed, and deployed multiple end-to-end web applications while independently managing planning, execution, testing, and deployment.
